

Environmental Services

Environmental regulation and compliance are an integral part of conducting business. These policies and procedures are continually changing and can be a challenge if not well understood and addressed at the initial onset of a project. EIS can help you understand and address environmental issues and needs associated with your project in order to meet your goals within the regulatory framework governing your projects.

Local Value:

EIS can handle all your projects from the initial permitting to their successful closure, and all the details in-between. EIS is experienced with environmental compliance and monitoring of interim and plugged and abandoned (P&A) well reclamation. We can assist you in reaching reclamation goals and the closure of sites in compliance with all governing agencies. EIS has established a good working relationship with the governing bodies, particularly in the San Juan Basin. We are well versed in each of their specific reclamation procedures and programs and currently work seamlessly with them to reach a successful and appropriate outcome for all parties involved.

Environmental Compliance and Permitting

- Environmental Assessments (EA)
- Endangered Species Act compliance, including Section 7 consultations, Section 10(a) permitting, and threatened & endangered species surveys
- Environmental mediation and facilitation
- Third party technical review
- Collaborative planning
- 401 water quality certification
- 404 CWA permitting
- Wetland delineation, mitigation and monitoring
- Stormwater Design, Implementation and Inspection
- SPCC Plans
- Invasive species management planning
- Surface Use Plan of Operations
- Reclamation Plans and Compliance Monitoring
- General management plans
- Natural Resource Management and Planning
- Habitat Conservation Plans (HCPs)
- Construction monitoring
- Third party inspection services
- Compliance Management Plans
- NPDES/ SWPPP monitoring and reporting
- Habitat restoration plans
- Relocation of sensitive species

Environmental Permitting (Regulatory Drivers)

- National Environmental Policy Act (NEPA)
- Endangered Species Act (ESA)
- Clean Water Act (CWA)
- Migratory Bird Treaty Act (MBTA)
- Bald and Golden Eagle Protection Act (BGEPA)
- FERC compliance permitting
- Nationwide, state, regional, county, local, and individual permits
- Rivers and Harbors Act - Section 10 and 9

Natural Resource Consultation

- Wildlife Studies and Management Plans
- Rangeland Assessments, Studies and Management Plans
- Habitat and Vegetation Mapping
- Wetland Delineation
- Wetland Restoration and Monitoring
- Endangered Species Act compliance, including Section 7 consultations, Section 10(a) permitting, and threatened & endangered species surveys
- Habitat Conservation Plans (HCPs)
- Biological assessments and evaluations
- Avian Protection Plans
- Eagle Mitigation and Monitoring Plans
- Pre-construction nest surveys
- Ecological assessment and restoration
- Comprehensive Conservation Plans (CCPs)
- Invasive species management
- Phase I ESAs
- Integrated Natural Resources Management Plans (INRMPs)
